

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE****Attorney's Docket N . SHORE-002****In re Applicati n f:  
Haase, Richard****Art Unit: 1724****Serial No.: 09/733,392 & 90/005,710****Examiner: Barry, Chester T****Filed: 12-7-00 & 4-24-00****Title: Method for Dewatering of Sludge****DECLARATION OF DAVID BRESLIN**

1. My name is David Breslin.
2. I am a Marketing representative in the field of environmental chemicals.
3. In 1997 I was employed by Vulcan Specialty Chemicals (Vulcan) and was contacted by Mr. Richard Haase about providing his company, ClearValue, Inc. with DADMAC polyacrylamides and high molecular weight epipolyamines.
4. Vulcan did not manufacture DADMAC so I visited Vulcan's R&D department in Columbus, Georgia and provided them with Mr. Haase's request in an attempt to identify other polyquaternary amines.
5. The scientist at the R&D department informed me that ClearValue's request was not the traditional technology and were concerned that to file ClearValue's order was a waste of time, specifically on high molecular weight epipolyamines for raw water clarification.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of this application or any patent issued thereon.

Full name of Declarant:	David Earle Breslin
Residence:	16736 Amberwood Drive Baton Rouge, LA 70810
Citizenship:	USA
Post Office Address:	N/A

Date: November 12, 2003
